We love the Celebrate set! There are so many fun ways you can use this set! One of them is creating a fun 3D pinwheel look. Not familiar with this tip yet? Check out this video!

Here is a quick video to show you in real time cutting out Good Times #1. The trick here is to slow down your cuts. It takes a little more patience but the detail that the confetti adds to your projects is worth the minute it takes to cut it out.

With designs that are round (like Good Times #3), we recommend you cut around the outside edges first, then go back and snip inside each of the petals. This will help simplify the cut.

the next page...

## Tip

To create a smaller version of the Portrait a la carte, use the middle square that you cut out from the center and make a smaller Portrait frame from it.

Step 1:  
Lay the template out on one corner of the paper and trace the corner of the template and the scallop on each side of the corner.

Step 2:  
Here is a close-up.

Step 3:  
Go to the next corner of the paper and place the template corner there. Then trace the two scallops to meet up with the one already drawn. You will have a corner, 3 scallops, then a corner. That's the pattern.

Step 4:  
Continue around the paper until you have 4 corners and 3 scallops between each corner.

Step 5:  
You can see the size difference. It can be used as a mat or you cut a square out of the middle to use as a frame like I did on my layout.

Sequins make the perfect bubbles!
